

## ABSTRACT OF THE INVENTION

There is disclosed a polyurethane composition with a glass  
cullet filler. The composition comprises at least one polyol, an isocyanate,  
a catalyst and glass cullet. The glass cullet has an average particle size of  
not greater than 100 mesh and not less than 325 mesh. A method of  
producing a polyurethane composition with a glass cullet filler is also  
disclosed.
